SUMMARY

IMDA Gold Medalist and top RP graduate with enterprise automation experience at OCBC. Proficient in full-stack development with Next.js, TypeScript, and PostgreSQL. Built and deployed a production anime tracker with OAuth, CRUD, and personalized recommendations. Seeking a full-stack or front-end developer role to build scalable, user-focused applications.

EDUCATION

Republic Polytechnic

Diploma in Digital Design and Development

- GPA: 3.97 / 4.00

2022 – 2025

Singapore

PROJECTS

Kiroku | *Next.js, TypeScript, PostgreSQL, Tailwind CSS, Prisma*

- Built a full-stack anime tracker with Discord OAuth, email/password authentication, and JWT session management
- Developed a 7-day seasonal broadcast calendar with episode countdown timers and Framer Motion animations
- Created a personalized recommendation engine that analyzes watch history and filters results by genre and rating
- Deployed on Vercel with a serverless-friendly architecture using Prisma ORM and Supabase PostgreSQL

Urara | *React, TypeScript, Tailwind CSS, Framer Motion, TanStack Query*

- Built a fan encyclopedia for Umamusume Pretty Derby consuming the umapyoi.net public API, and MyMemory API for translating Japanese text to English
- Built a character browser with scrollable sidebar, animated detail panel, and per-character accent colors
- Built a music player with character filtering, album art display, and Apple Music preview playback

Handler One | *React, Tailwind CSS, React Router, TanStack Query*

- Built an 86 Eighty-Six fansite styled as a military command terminal with CRT scanline overlays, vignette effects, and conditional alert themes based on unit operational status
- Implemented client-side routing with React Router for dashboard, character roster, and individual processor dossier views at `/characters/:id`
- Designed atmospheric battlefield effects with a `FireParticlesBackground` component and a responsive multi-breakpoint navbar

EXPERIENCE

Software Test Engineer (Internship)

Oversea-Chinese Banking Corporation

- Developed and maintained automated test scripts using Tosca, covering over 800 test cases in regression testing and UAT to improve testing efficiency and reliability
- Researched and presented feasibility studies on AI-driven automation tools to senior stakeholders, influencing team tooling decisions
- Collaborated with a small team to manually execute and document over 300 test cases in the span of two weeks

2024 – 2025

Singapore

AWARDS AND HONORS

IMDA Gold Medal Award Recipient

Republic Polytechnic

2x Diploma Prize Recipient for AY 2022 and 2023

Republic Polytechnic

2025

Singapore

2022 – 2023

Singapore

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, PHP, SQL, C#

Frameworks & Libraries: React, Next.js, Tailwind CSS, Bootstrap, Framer Motion, TanStack Query, Prisma

Databases: PostgreSQL, MySQL

Tools & Platforms: Git, Tosca, Android Studio, Tableau, Power BI, UiPath, XD, Illustrator, Photoshop
