SUMMARY

IMDA Gold Medalist and top RP graduate, currently a Software Engineer at NCS in the AI Engineering AgentOps practice. Experienced in full-stack development across React, Next.js, TypeScript, Java, and Spring Boot. Built and deployed production web applications with OAuth, CRUD, and personalized recommendation systems.

EXPERIENCE

Software Engineer

2026 – Present

NCS Group

Singapore

- Joined the AI Engineering & AgentOps practice under the NCS Fusion Programme
- Developing full-stack applications using Java, Spring Boot, Angular, and PostgreSQL

Software Test Engineer

2024 – 2025

Oversea-Chinese Banking Corporation

Singapore

- Developed and maintained automated test scripts using Tosca, covering over 800 test cases in regression testing and UAT to improve testing efficiency and reliability
- Researched and presented feasibility studies on AI-driven automation tools to senior stakeholders, influencing team tooling decisions

PROJECTS

Kiroku | *Next.js, TypeScript, PostgreSQL, Tailwind CSS, Prisma*

- Built a full-stack anime tracker with Discord OAuth, email/password authentication, and JWT session management
- Developed a 7-day seasonal broadcast calendar with episode countdown timers and Framer Motion animations
- Created a personalized recommendation engine that analyzes watch history and filters results by genre and rating

Urara | *React, TypeScript, Tailwind CSS, Framer Motion, TanStack Query*

- Built a fan encyclopedia for Umamusume Pretty Derby consuming the umapyoi.net public API, and MyMemory API for translating Japanese text to English
- Built a character browser with scrollable sidebar, animated detail panel, per-character accent colors, and a music player with character filtering and Apple Music preview playback

SkillForge | *Angular, Spring Boot, Hibernate, PostgreSQL*

- Built a full-stack e-learning platform with instructor and student roles, quiz creation, and progress tracking
- Implemented RESTful APIs with Spring Boot and Hibernate ORM, backed by a Supabase PostgreSQL database
- Developed a responsive Angular frontend with role-based views and real-time quiz feedback

EDUCATION

Republic Polytechnic

2022 – 2025

Diploma in Digital Design and Development

Singapore

- GPA: 3.97 / 4.00

AWARDS AND HONORS

IMDA Gold Medal Award Recipient

2025

Republic Polytechnic

Singapore

2x Diploma Prize Recipient for AY 2022 and 2023

2022 – 2023

Republic Polytechnic

Singapore

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, PHP, SQL, C#

Frameworks & Libraries: React, Next.js, Tailwind, Angular, Spring Boot, Hibernate

Databases: PostgreSQL, MySQL

Tools & Platforms: Git, Vercel, Render
